

Dang Le

Android Engineer / Vancouver, WA (Remote)

(503) 928-4554 | dannylpov@gmail.com | [linkedin.com/in/dang-le-46aa01122](https://www.linkedin.com/in/dang-le-46aa01122)

Professional Summary

Android Engineer with 7+ years of experience building reliable, high-performance mobile applications. Skilled in Kotlin, Jetpack Compose, and Clean Architecture, with extensive experience integrating RESTful APIs, optimizing app performance, and delivering maintainable, scalable solutions. Strong collaborator in agile, cross-functional teams, focused on creating intuitive and stable user experiences.

Technical Skills

- Languages: Kotlin, Java, JavaScript, TypeScript
- Frameworks & Libraries: Android SDK, Jetpack Compose, Material Design, Retrofit, Room, Coroutines, Hilt/Dagger, React Native
- Tools & Platforms: Android Studio, Gradle, Git, Firebase, Crashlytics, Google Play Console
- Architecture & Patterns: MVVM, Clean Architecture, Dependency Injection

Professional Experience

Android Engineer

Transaction Network Services – Remote (Seattle, WA) | June 2021 – Present

- Developed and maintained enterprise Android and React Native applications focused on reliability, scalability, and performance.
- Integrated RESTful APIs with secure data handling and efficient background synchronization using Kotlin Coroutines.
- Implemented MVVM architecture and modular components, improving testability and development speed across teams.
- Collaborated with designers, QA, and backend teams to ensure seamless integration and on-time releases.

Android Engineer

TecAce Software – Hybrid (Bellevue, WA) | July 2018 – May 2021

- Built and enhanced Android applications using Jetpack libraries, MVVM architecture, and React Native for select cross-platform projects.
- Designed and optimized custom UI components aligned with Material Design and accessibility standards.
- Integrated RESTful APIs and background services for real-time data handling and improved app reliability.
- Participated in code reviews, QA testing, and release planning to maintain stability and consistency across product updates.

Education

University of Washington, Seattle, WA

Bachelor of Science in Computer Engineering — December 2017
